Discussion

Cerebral palsy is a neurological disability that affects thousands of children and adults worldwide. March is Cerebral Palsy Awareness Month, which allows us to celebrate and educate others about the disorder. Feel free to get to know who they are, and you will gain insight into how their disability affects them. March is Cerebral Palsy Awareness Month, a time to support and educate the public about this common disability. This month and on CP Awareness Day, which is March 25, Plasticity Brain Centers is proud to support CP awareness, as we work to assist these individuals with their brain health and their overall well-being.

Discussion

Breast cancer is cancer that forms in the cells of the breasts. After skin cancer, breast cancer is the most common cancer diagnosed in women in the United States. Breast cancer can occur in both men and women, but it's far more common in women. Breast cancer survival rates are rising as screening and treatment improve. However, breast cancer is still the most invasive cancer in women.
